PROFESSIONAL SUMMARY

- Dynamic .NET Developer with **3+ years of experience** in designing, developing, and maintaining scalable web applications using **C#, .NET Core, ASP.NET Core MVC, and .NET Web API**.
- Proficient in designing **RESTful APIs**, implementing business logic, and building responsive user interfaces using **JavaScript, jQuery, Kendo UI, Bootstrap, and basic Angular**.
- Hands-on experience with **Microsoft Azure services**, including App Services, Function Apps, Azure SQL, Storage Accounts, and Key Vault, Open AI services.
- Strong knowledge of **SQL Server, Entity Framework, LINQ, and relational database design principles**.
- Experienced across the full **Software Development Life Cycle (SDLC)** in **Agile/Scrum environments**, with expertise in debugging, code reviews, and production support.
- Skilled in **performance optimization, secure application design, and delivering maintainable solutions** aligned with business requirements.

EXPERIENCE

Systems Engineer — Tata Consultancy Services (TCS), Hyderabad, India

Mar 2022 – May 2026

- Awarded Star of the Month and received Client Appreciation recognition at Tata Consultancy Services.
- Received Client Appreciation for outstanding contribution to the project in TATA Consultancy Services.
- Service Committed Appreciation Award from Tata Consultancy Services (TCS) for dedication and excellence in project delivery

PROJECT EXPERIENCE — ITF PROJECT AT TATA CONSULTANCY SERVICES LTD (FINANCIAL DOMAIN)

- Developed and maintained scalable web application modules for a financial domain platform using .NET Core, ASP.NET Core MVC, C#, JavaScript, jQuery, and Kendo UI.
- Designed responsive UI components to support real-time financial data interactions and dynamic content rendering.
- Built and integrated RESTful APIs hosted on Azure App Services and Azure Function Apps, enabling seamless data flow across application layers.
- Connected application modules to Azure SQL Database and Azure Storage Accounts, improving data processing efficiency.
- Implemented complex business logic and financial calculation engines to deliver accurate data insights to stakeholders.
- Secured sensitive application data using Azure Key Vault, reducing security risk and ensuring compliance.
- Improved application performance through asynchronous processing patterns and optimized front-end rendering techniques.
- Participated in Agile sprint ceremonies — planning, reviews, retrospectives — and contributed to code reviews and defect resolution.

TECHNICAL SKILLS
